

P-Light power supply 150 Ah.

1. Z-Lyften Produktion AB and Innonet AB has in a first step started cooperation together.
2. The purpose of the collaboration is that Z-Lyftens products can be used with Innonets product P-Light Magnum.
3. In a first test at Z-Lyften Produktion AB between 2016-09-07 – 2016-09-08 the results indicates that Innonets product are able to supply our products with power from a battery capacity of 150Ah and with a charging capacity of 2x10A.
4. Based on the above test, we can at this stage recommend P-Light Magnum as a power supply.
